

Program of Plac.Art.X 18th august at Leerer Beutel/ Regensburg

placard - headphone festival of experimental sounds, electronic and acoustic

Plac.Art.X is a placard taking place on the 18th august 2007 at Leerer Beutel in Regensburg/Germany. Placard or if in english – headphone festival is an alternative form of participating in music, both as a listener and as a performer artist. No more feedbacking loudspeaker systems, no more complaining neighbours. Headphone festivals are a social and musical experiment. You can listen and participate in the Plac.Art.X both in Regensburg and also remote from internet thru audio streams on the web. The placard is one of the happenings during the art.xxXtenxions weeks during august from Pomodoro Bolzano media art group and the placard is curated from their artist in residency Björn Erikson (aka Miulew) from Sweden.
